What Would You Do? (I)

During the year, schools hold sporting events and, in the spring, graduation ceremonies. In which of these school rituals would you think prayer could or should be allowed?
The U.S. Supreme Court ruled the following:

- Prayer given by an individual in a graduation speech is allowed
- Prayer before a sporting event is not constitutional
What Would You Do? (II)

A group of students wear black arm bands to school to protest the War in Iraq and are suspended. Is this a violation of their constitutional rights? Why or why not?

The U.S. Supreme Court ruled that students “may express his opinion, even on controversial subjects like the conflict in Vietnam… Under our Constitution, free speech is not a right that is given only to be so circumscribed that it exists in principle but not in fact.” However, they cannot interfere with normal activities of the school.
A local school decides to require urine testing for drugs before any student participates in competitive and/or certain extracurricular activities. Is this reasonable? Why or why not?
The Court’s decision states that students in school are in “temporary custody of the state” and a “student privacy interest is limited in a public school environment.”

The manner in which the school collects the urine samples is not an invasion of privacy.

Schools do not need to prove probable cause before searching a student’s possessions as long as the search is conducted in a reasonable manner.
