

SeEd 4102: Teaching and Learning Strategies  
Peer Teaching II Reflection

NAME \_\_\_\_\_

Reflect on your peer teaching, view your videotape, and review the comments from your peers and teacher. Answer the following items. Attach feedback evaluations to this sheet and turn in your self reflection within a week of your teaching. Continue your comments on another page if needed.

1. What part of this lesson do you feel was particularly effective? Why do you think it was effective?
2. What part of this lesson needs improvement? If you had an opportunity to teach this lesson again, how would you teach this section differently?
3. How well do you feel the students responded to the lesson? What did you observe which brings you to this conclusion?
4. At this point in your development as a teacher what do you feel are your strengths?
5. What teaching areas do you feel you should work to improve?
6. Review the scores and comments on the feedback forms. Do you feel the feedback is a fair reflection of your work? Why or why not?
